

Dependably different. Lab ready.

Put your analysis on a path to greatness with refined LC systems and torque-controlled fittings

Easy to use

Connect confidently with torque-controlled fittings.

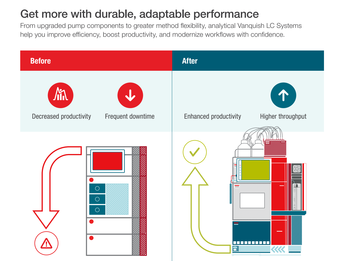

Thermo Scientific™ Vipe™ TQ UHPLC Fittings help ensure reliable, repeatable connections

Simplify workflows for every member of your team

Lab-friendly Thermo Scientific™ Vanquish™ User Interface touchscreen minimizes the need for user training.

Fully predefined and automated or guided procedures for daily use, diagnostics, installation, maintenance, and service. This update significantly reduces the workload for every user.

Explore intuitive solutions to power your lab

Built for productivity

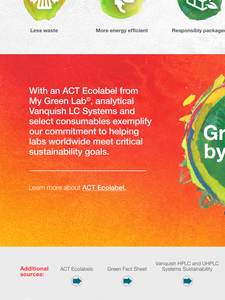

Make every drop count with vial bottom detection

Maximize sample recovery with vial bottom detection (VBD) technology. With VBD, your entire sample volume is virtually injectable.

Analyze more samples in less time

Easily expand your sample capacity with the Thermo Scientific™ Vanquish™ Sample Hub—extending unattended operation while still ensuring reliable, on-time results.

Get more with durable, adaptable performance

From upgraded pump components to greater method flexibility, analytical Vanquish LC Systems help you improve efficiency, boost productivity, and modernize workflows with confidence.

Greener by design

Support better sustainability in your lab and beyond

With polyvinyl chloride- and polystyrene-free secondary and tertiary packaging and My Green Lab® ACT® Ecolabel, that quantifies environmental impact, you can choose solutions that help support your sustainability goals and protect our planet.

See your instrument's impact with the ACT Ecolabel

my green lab. ACT Ecolabel

Reduce lab waste with reliable parts and low failure rates

With an ACT Ecolabel from My Green Lab®, analytical Vanquish LC Systems and select consumables exemplify our commitment to helping labs worldwide meet critical sustainability goals.
